REQUEST FOR INFORMATION UNDER THE RIGHT OF ACCESS TO INFORMATION ACT, 2017

Dear Sir,

The Public Interest Law Association of Pakistan (PILAP) is a public interest association registered under the laws of Pakistan and is concerned with addressing issues of public interest in accordance to the Fundamental Rights guaranteed by the Constitution of the Islamic Republic of Pakistan. It respectfully submits as under: -

1. That the details of the authorized person on behalf of PILAP are as under: -

PUBLIC INTEREST LAW ASSOCIATION OF PAKISTAN

Plot # 18-C, 2nd Floor, Office # 202, Zamzama Lane # 2, Phase-5, DHA, Karachi.
Phone: +9221 32417049, +9221 32417087, +9221-35304110 Email: info@pilap.pk

2. That please refer to the article published in *Dawn* on 5th July, 2020, titled "Clifton Beach Development Project Poses Serious Environmental Risk, Experts Warn". The said article is attached herewith for ease of reference.
3. That the above mentioned article draws attention to a development project currently being undertaken by the Cantonment Board Clifton (CBC) along a stretch of Seaview Beach. Though the project has been approved by the Sindh Environmental Protection Agency (SEPA), the approval was granted without a detailed Environmental Impact Assessment (EIA). Under the provisions of the Sindh Environmental Protection Act, 2014, once an EIA has been submitted by a proponent of a project, SEPA is required to review it before such approval is granted. Every such review is to be carried out with public participation and after full disclosure of the project details.
4. That the citizens of Karachi are stakeholder in the proposed CBC project and hence it is their right to be a part any decision-making process that has an impact on their lives. The Constitution guarantees the right to life, which has been interpreted by the Supreme Court of Pakistan to include the right to a healthy environment. The citizens, therefore, are entitled to be a part of any review process that could have an impact on their lives.
5. That the proposed project could potentially have an adverse impact on the surrounding environment, including the coastline. It would also pose a risk in terms of polluting the water, and hence threatening the flora and fauna, as well as the human population.
6. That, in light of the above, PILAP respectfully submits this Application requesting for information under the right granted to all citizens of Pakistan under the Right of Access to Information Act 2017 as under: -
 - i) What is the reasoning behind SEPA's failure to conduct a review of CBC's proposed project, as it is required to do under the law?
 - ii) What is the reasoning behind SEPA's failure to meet the requirement of seeking public participation in its review of the CBC project, as it is required to do under the law?
 - iii) What measures, if any, has CBC taken to ensure that the proposed project shall be open to all citizens, in line with the pronouncements of the Honourable superior

courts that have pronounced that the right to open access to public spaces is a fundamental right?

iv) What steps, if any, has CBC taken to ensure that the proposed project does not adversely impact the environment, including the sea and coastline, flora and fauna and human health?

7. That in the circumstances, PILAP would be grateful for a reply at the earliest.

Thank you.
